

## A Certified **WOMAN-OWNED SMALL BUSINESS**

### Capability Statement

Med Systems is a leading provider of high-quality airway clearance devices and single-use masks, specializing in innovative respiratory care solutions. With a strong commitment to improving patient outcomes, we design and manufacture cutting-edge products for healthcare providers and patients in need of reliable, effective respiratory care. Since 1976, our expertise in medical device manufacturing, coupled with stringent quality control and regulatory compliance, ensures that we deliver products that meet the highest industry standards.

#### 1. Airway Clearance Devices

- Fluid Flo® 2500 Pneumatic Percussor Series
- Electro Flo® 5000 Airway Clearance System & Self-Administrator.

- Design and manufacturing of advanced airway clearance systems to assist patients with respiratory conditions such as COPD, cystic fibrosis, pneumonia, bronchiectasis, occupational and other lung diseases.
- Customized solutions for healthcare providers to address diverse patient needs, including mechanical and oscillatory devices.
- Efficient removal/mobilization of mucus to improve lung function and reduce the risk of infection.

#### 2. Single-Use Anesthesia Masks

- Model 2100 Series
- Sizes of Small, Medium and Large
- Production of latex free masks with comfort seal for both medical professionals and patients benefit.
- Perfect for Anesthesia or any Pressure Breathing Application
- Soft foam cushion maintains a seal on patient's face even over facial hair or a cannula

#### 3. Product Innovation & Customization:

- All products are patented.
- Ability to customize products based on client specifications and evolving healthcare needs.

#### 4. Regulatory Compliance

- Fully compliant with FDA regulations, ISO marking requirements, and other international medical device standards.
- In-house quality assurance team ensures strict adherence to our ISO 13485:2016 standards for medical device manufacturing.

#### 5. Manufacturing & Supply Chain Expertise

- USA manufacturing facility equipped for high-volume production with fast lead times.
- Robust supply chain management ensures timely delivery of products.

#### 6. Quality Assurance & Certification

- ISO 13485 certified manufacturing processes.
- WBE Women Business Enterprise certified
- SAM.gov registered
- Continuous monitoring and testing of products for safety, performance, and compliance.
- Commitment to exceeding industry standards for product reliability and durability.

This capability statement showcases Med Systems Manufacturing's expertise in airway clearance devices and single-use masks, highlighting its strengths in innovation, quality, and regulatory compliance.

## KEY DIFFERENTIATORS

- **Advanced Technology:** We are the sole source for all of Med Systems designed unique products.
- **Factory Direct Pricing:** Lowest prices are available with a guarantee of our products and service.
- **Regulatory Expertise:** Our comprehensive understanding of FDA & ISO regulatory standards allows us to deliver compliant, safe, and effective medical devices.
- **Customer Support:** Dedicated customer service team providing end-to-end support, from product selection to post-delivery technical assistance.
- **All Products are manufactured in the USA**

## CLIENTS AND MARKETS SERVED

- Hospitals, clinics, and healthcare facilities
- Home healthcare providers and patient direct.
- Distributors and resellers of medical equipment
- Government agencies and military healthcare systems
